**Subject: MSSP Coordinators' Meeting 13 to 15 February 2018**

Dear Mr Liu,

I have pleasure in inviting you to the biennial Member State Support Programme Coordinators' Meeting to be held from 13 to 15 February 2018 at the International Atomic Energy Agency's (IAEA) Headquarters in Vienna, Austria.

The meeting will commence at 09:00 on Tuesday, 13 February, in Room M2, Building M of the Vienna International Centre (VIC). You are requested to arrive at Checkpoint 1/Gate 1 of the VIC one hour before the start of the meeting on the first day, in order to allow sufficient time for your grounds pass to be issued, as such passes are necessary for official visitors to the VIC.

The Department of Safeguards will present its Development and Implementation Support (D&IS) Programme for Nuclear Verification 2018-2019 and brief participants on planned Departmental activities and needs for the next two years. The meeting will also feature the release of an updated R&D Plan and discussions on how the Department can strengthen its cooperation with Member State Support Programmes to address current challenges and opportunities.

As many of the discussions and briefings during the meeting will be run in two parallel sessions, the IAEA requests the participation of more than one representative from each Member State Support Programme, wherever possible.

The full draft agenda will be distributed shortly. You should also expect to receive digital versions of the D&IS Programme and updated R&D Plan about two weeks prior the meeting.

You are kindly requested to confirm the names of participants from your Member State Support Programme to Ms Dawn Jennings-Neumayer, E-mail: [D.Jennings@iaea.org](mailto:D.Jennings@iaea.org), by 15 January 2018.

Finally, let me take this opportunity to express the appreciation of the IAEA for the continued and valuable support provided by your Support Programme to the IAEA's safeguards efforts.

Yours sincerely,

Therese Renis  
 Director  
 Division of Concepts and Planning  
 Department of Safeguards
